

March 25, 1998

Dear Howbrite Solutions Personnel,

I have been using the Junior 20 Mathline with a few students in my class this year. I have found it to be very beneficial for the students who tend to get distracted when using other manipulatives in adding and subtracting. I am currently borrowing the mathline from a special ed teacher and would like to order one or more for my classroom next year. The only address we have to order from is on the mathline. If you still have these for sale, would you please send an order form as soon as possible.

Thank you very much!

Address:  
Judy Olson  
Byron P-4
