TO: Howbrite Solutions

This is just a quick note to let you know that I just love using the Mathlines with my 1st and 2nd grade class. Their calculations are so much more accurate.

Batoche, a special ed student, now knows how to count to 100 because of the Mathline. They get lots of hands-on practice, and Austin, another special ed student, is now able to do simple addition problems.

Sincerely,

Sharon Bostrom
